BANQUET PRICING & INFORMATION

Our pricing is broken down by daypart- A.M. or P.M. If we have the room back by 4:00 PM at the latest, then you will receive daytime pricing. Pricing is based on a per head rate that includes everything except for tax, gratuity and alcohol.

Tax is 6% and gratuity is 22%. Items included in the per head pricing are the following: room rental fee, white table linens, unlimited non-alcoholic beverages, and the food. You have the option of choosing the food to be served either buffet/family style or plated.

For buffet style, daytime pricing begins at \$25.00 per person and \$30.00 for the evening. The food that is included in this base package is: one main entrée, one starch, one vegetable, bread and a salad. Anything can be added to this menu at an additional cost. For example, a second entrée can be added for an extra \$5 per person. We do have to add an additional cost of \$5 for any Beef selection.

For a plated or family style menu, daytime pricing begins at \$40 and \$45 for the evening. Each person will be able to choose either a beef, chicken, fish or vegetarian option. Also, they will select a salad from two options. The salad will be served with bread for each table. These options will be selected by the host of the party and one of our managers one week prior to the event date.

For any banquet situation, we do allow outside cakes. We can cut and serve the cake at no extra cost. Decorations are encouraged and welcome for your event, however confetti is strictly prohibited.

Alcohol packages can be designed several different ways. For open bars where the host of the party is paying for everyone's drinks, pricing can be based on a per head rate, a per bottle price, or a per drink situation.

For a per head rate, pricing starts at \$30 per person. This includes well liquor, up to 4 draft beers that are based at a \$6 per glass price, and our house wine. \$35 per person includes call liquor, up to 4 draft beers that are based at a \$6 per glass price, and our house wine. \$50 per person includes liquor that is priced up to \$10 per house pour, up to 4 draft beers that can be up to \$8 per glass, and up to 5 different selections of wine that can be up to \$35 per bottle.

For a per bottle situation, the host of the banquet can pay for bottles of liquor. The number of bottles opened is what is paid for. For this situation, the host can pay for individual kegs of beer - up to 4 different choices. Also, wine can be paid for based off how many bottles are opened.

For the per drink situation, the cost of the alcohol bill is strictly based off consumption. In other words, whatever is ordered is what is paid for.

Alcohol can also be served as a cash bar. In this situation all your guests are responsible for paying for their own drinks.

For a champagne toast, the charge is \$3 per person or \$30 per bottle for our house sparkling wine.
